

LED Pilot Light

Description

MEC 21 Mechanisms

Ref. 21361 - Led Pilot Light

Ref. 21365 - Led Pilot Light Double State Green/Red

Finishings - **LOGUS 90** | **APOLO 5000** | **SIRIUS 70**

Possibility of putting a cover in one of the following colors:

- - Colorless
- - Orange
- - Green
- - Red

100-240 V ~
50-60 Hz

Characteristics

Mechanisms in Technical Thermoplastic - resistant material, non-conductive

Rated voltage: **100-240 V ~ | 50-60 Hz**

Operation temperature: **-10 °C to +45 °C**

Pilot Light with integrated LED

Ref. 21361

- L1 - 0,2 W
- L2 - 0,4 W

Ref. 21365

- L1 - RED - 0,4 W
- L2 - GREEN - 0,4 W

Operation

Ref. 21361

Light/Visual Signaling Mechanism with two levels of lighting.

Ref. 21365

Light/Visual Signaling Mechanism with two colors (Green/Red)..
